AsukaBook

This premium Coffee Table Style album is printed and bound like an actual high-quality book with sturdy, beautifully colored pages that will last for years to come. With design flexibility of single or multiple images per page and fully printable covers, your pictures will be preserved in an album style that will present a vintage appearance for years to come. Available with each book is a jacket replica of the cover and hard cover case.

HARD COVER, BOOK BOUND - EX

This album offers the highest quality in the line-up. Pages have a Laminate protective coating in either a Matte or a Glossy finish to preserve it's appearance for years to come. Books also feature a printed book jacket and exclusive red or black book case with personalized silver hot stamping.

HARD COVER, BOOK BOUND - LX, FLX

Same as the EX with choice of cover style.
LX Leather, Luxurious and real
FLX Faux Leather, but you will have difficulty differentiating it from real leather.

HARD COVER, BOOK BOUND

This design has a high-end feel that is reminiscent of fine art coffee table books. It too offers full cover print that is coated, jacket, case and hot stamping.

SOFT COVER, BOOK BOUND

For a more casual feel, this soft cover design is comfortable to hold and flip through with still offering a fully printable cover and protective coating. Naturally, this stile, while more casual, will be less expensive too.

HARD COVER STITCH BOUND

For books with fewer pages, the Stitch-Bound design may be the best. The pages are slightly thicker and use a classic saddle stitch. These less expensive books are perfect for mini albums and with the type of binding, there is minimal loss in the gutter offering nearly a full bleed page view.
